

EZ MEASURING GUIDE

- 1.) Measure all the walls and openings of your kitchen in inches and fractions.
- 2.) Measure to the center of any major fixture / appliance from the nearest "fixed" wall.
- 3.) Mark the location of all plumbing, gas lines, electrical, vent hole and heating fixture.
- 4.) Double check all measurements and list the heights of ceiling.
- 5.) List types and sizes of appliances.

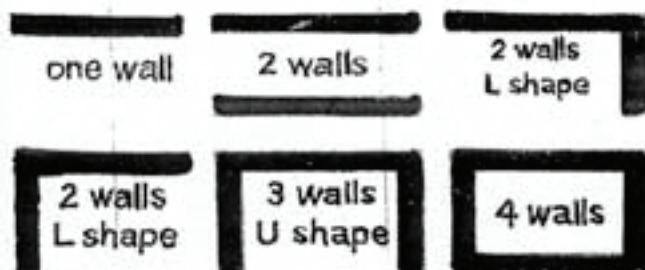

Bring your drawing to CABINET KING for a professional design and estimate.
